Recommendations Outcomes Committee

The recommendations below will be presented and discussed at the November FaDSS Council meeting. Each subgroup has supporting documents that are included in the FaDSS Council packet.

Matrix Subgroup

(See Enclosure #1)

1. The FaDSS Outcomes committee recommends that the attached Self-Sufficiency Matrix and Domains be approved. (See Enclosure #1)

2. The DCAA staff with assistance from the self-sufficiency matrix subgroup will work on an instruction manual and training for the self-sufficiency matrix.

3. The DCAA staff with assistance from the self-sufficiency matrix subgroup will develop a pilot to test the self-sufficiency matrix prior to implementation.

Data Collection Subgroup

(See Enclosure #2, #3, #4)

1. The FaDSS program beginning in program year 2017 will integrate all data collection into the web-based system. There will be one point to collect all the data in the FaDSS program.

2. Data on the FaDSS Program Data Collection sheet will be the information collected for the FaDSS program. This does not include the matrix information. The matrix information will be integrated into the web-based system but recommendations will come from the Matrix subgroup.

3. The DCAA staff with assistance from the data collection subgroup and Hornby Zeller will work on an instruction manual and training for the data collected for the program.

Assessment Subgroup
Information regarding the recommendations from the assessment subgroup will be emailed to FaDSS council members by November 13, 2015.
